ACME WATER DISTRICT

Water Conservation Guide

Simple ways to save water and money

Indoors

- Fix leaks promptly. A dripping faucet can waste hundreds of gallons a month.
- Run full loads in the dishwasher and washing machine.
- Take shorter showers and install a low-flow showerhead.

Outdoors

- Water early in the morning or in the evening.
- Choose drought-tolerant plants and add mulch.
- Check sprinklers for leaks and overspray each season.
